

EXPERIENCE

Booz Allen Hamilton – Staff Engineer - Houston, TX (Remote)

March 2024 – Present

Global management and IT consulting firm specializing in defense, intelligence, and civilian government.

- Contributed to full-stack development of a federal bioinformatics application using C# .NET, React, and TypeScript with PostgreSQL as the primary data store.
- Integrated third-party bioinformatics tools and external data pipelines into the application, enabling researchers to access and cross-reference multiple genomic datasets from a single interface.
- Built reusable React component libraries and TypeScript-typed UI systems, improving frontend development velocity by ~30% and ensuring consistency across the application.
- Designed and implemented responsive, accessibility-compliant interfaces in close collaboration with research scientists, reducing user-reported friction points by 40%.

Lokion Interactive – Software Developer - Houston, TX (Remote)

July 2022 – Dec. 2023

A full-service technology firm providing innovative solutions to industry leaders including FedEx, Terminix, and AutoZone.

- Full-stack development for <https://pro.frontdoor.com/> using React, Next.js, Node.js, Google Firebase and TypeScript, optimizing client account management and appointment scheduling. Achieved a 23% increase in online leads and a 13% improvement in page load time.
- Developed a franchise management system via the OroCommerce eCommerce platform, utilizing HTML Twig templating, SASS, PHP, Symfony, and Docker. Successfully delivered the MVP 50% ahead of schedule within a 3-month timeframe.

Rice University – Frontend Web Developer - Houston, TX

May 2021 – July 2022

Top 20 university and research institution.

- Developed and maintained 20+ sites under the university's domain using Drupal via Twig, HTML/SASS, and JavaScript, including a [faculty search](#) application.
- Implemented SEO strategies to improve the university's presence in the search landscape, leading to an increase in average organic monthly site visits to their primary sites by 37% (Rice News, Admissions, and MBA/Graduate programs).

TopSpot Internet Marketing – Web Developer - Houston, TX

April 2019 – April 2021

Premier digital marketing agency in the Houston area, specializing in servicing the B2B sector with tailored online solutions.

- Managed websites as the team's CMS specialist, proficient in various platforms including MODX, Shopify, Wix, WordPress, HubSpot, Magento (1 & 2), SquareSpace, and Drupal.
- Worked in tandem with the SEO and Pay-Per-Click teams to enhance website traffic and boost conversion rates, leading to an average increase of over 120% in conversion rates for new clients.
